

Name _____ Date _____

School _____ Period _____

Geologists at Work!

You have completed the different types of rocks tutorial today in the computer lab. This evening at home, your assignment is to go out around your neighborhood and collect 3 rocks from each of the types you learned about. Bring these to class tomorrow in groups, in sandwich bags that are clearly numbered and marked, Igneous, Sedimentary, and Metamorphic.

Type of Rock:	Location Found:
1.	
2.	
3.	
4.	
5.	
6.	
7.	
8.	
9.
